DESIGNER LAYOUT

Your resume will have a Modern and Professional Designer Layout Style. Classic and Elegant. Our unique formatting design is based on natural eye movement and is developed to rank you higher on ATS Software used by companies.

CONTENT AND WRITING

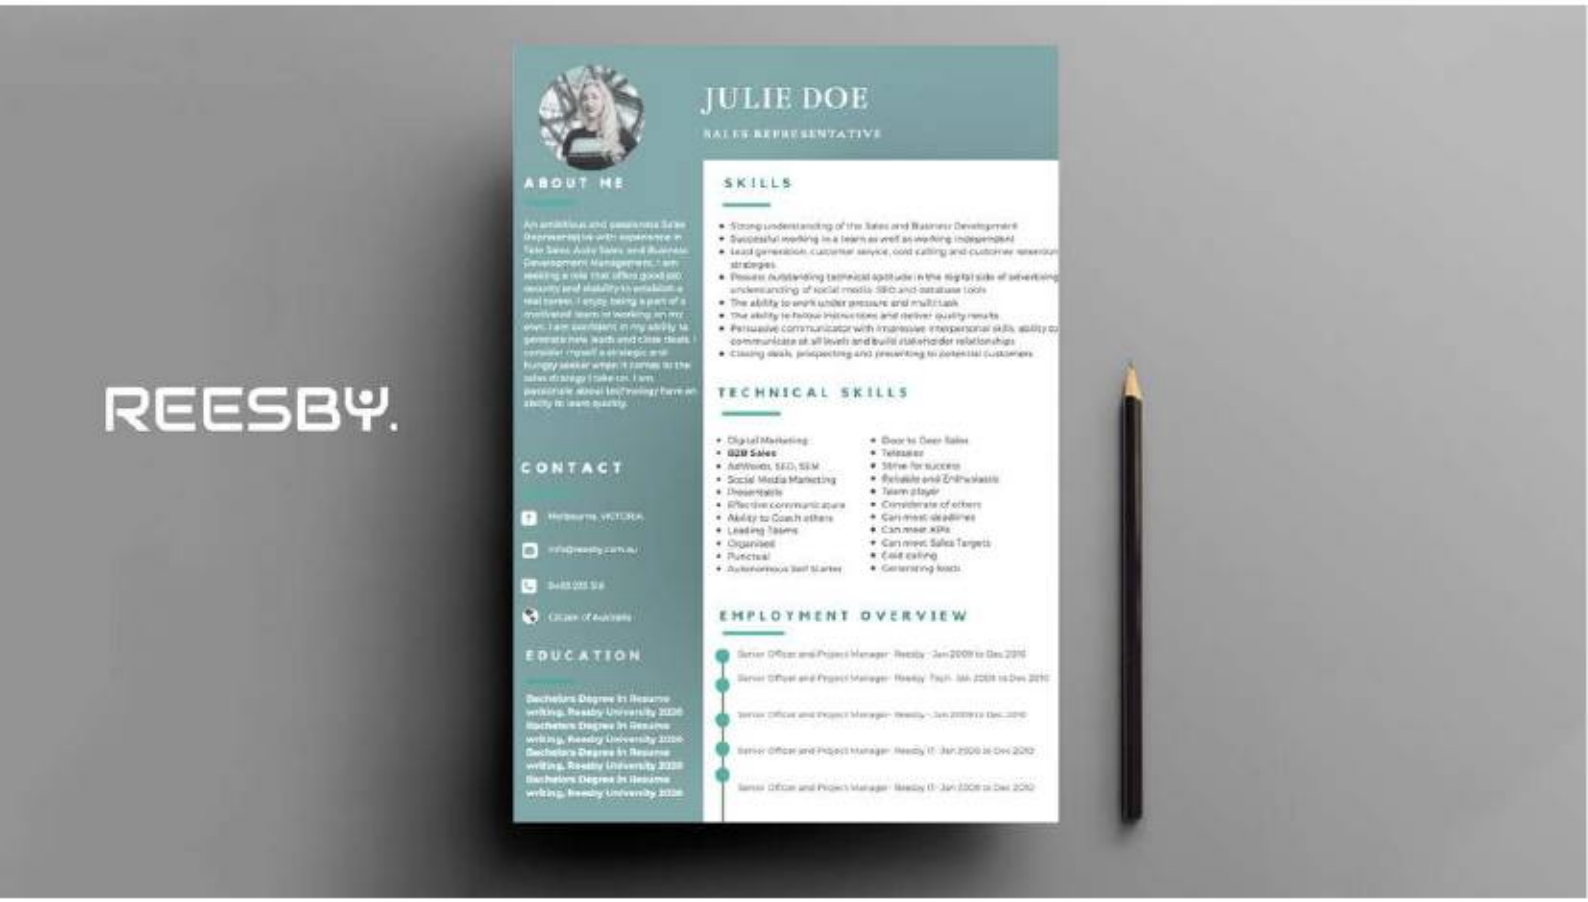

Sophisticated and industry-specific language is used to portray a confident and desirable candidate. We correct grammar and add or remove the content as we see fit. Our resumes are all you will need to put your best foot forward and land the interview.

INDUSTRY-SPECIFIC

Our resume writing team consists of Recruiters, Content Writing Experts, Marketing & Sales Specialists, Graphic Designers and Career Coaches. We know what employers want, the different jobs and industries, and how to market you to those areas. Using the correct lingo and knowing your sector gives us an advantage.

FULLY CUSTOMISED

We are a recruitment company, our specialty is to land you into better jobs faster with our fully custom CVs. However, resumes, writers and templates will only get you so far. You need people who know how to place a candidate into jobs to succeed.

BOOST YOUR RESUME

Our professional industry focused short courses are online and include a combination of modules, quizzes, assignments, and videos. These courses are typically focused on specific skills or areas of expertise and are designed to provide students with a comprehensive understanding of the subject matter. Some are work-based and others are online with a teacher or self led.

Our online courses are typically delivered through a learning management system (LMS) or other platform that allows students to access course materials, interact with instructors.

The course materials are mostly practical, but may include readings, videos and other resources that provide a comprehensive overview of the subject matter. Small assessments are used to assess student understanding and progress, and may include multiple choice questions, short answer questions, and other types of assessments.

Upon completing the course, students may receive a certificate of completion indicating that they have successfully completed the course and have gained the necessary skills and knowledge in the subject area to put on their resume.

The benefits of completing these professional industry focused short courses may include:

- Gaining a deep understanding of a specific subject or skill set that is relevant to your industry
- Improving your knowledge and skills in a particular area, which can help you advance in your career or prepare for new opportunities
- Meeting requirements for certification or licensing in your field
- Enhancing your resume and making yourself more competitive in the job market
- Personal development and enrichment

There are many reasons why you might want to undertake a short course, including:

1. Career advancement: By acquiring new skills through a short course, you can open up new career opportunities and increase their chances of getting promoted within their current job.
2. Competitive edge: In a competitive job market, having additional skills can give jobseekers a competitive edge over other candidates.
3. Flexibility: Our courses are flexible, allowing you to learn at their own pace and fit the course into their busy schedules.
4. Convenience: Many of our courses are offered online, making it convenient for you to access the material and complete the course from anywhere.
5. Cost-effective: Our courses are more cost-effective than traditional degree programs, or certificates, making them a more affordable option for you looking to acquire new skills.
